

CONTROL PANEL

TRANSPORTS EASILY

Aria "flat" and "steer" are equipped with a manual electronic control. The function include soft start, power and motor temperature control. A sensor of motor temperature control lights indicate the overheat power level.

The two ergonomically upper and lower handles and the perfect weight distribution make transporting the Aria effortless in the horizontal or vertical position. The tapered profile, allows the machine to easily fit in a stair step.

models are equipped with led bag indicator
