LINDHAUS
QUALITY CLEANING EQUIPMENT

LW 30 pro
High-End Scrubber

LW 38 pro
High-End Scrubber

Lindhaus' many years of experience in the manufacturing of professional carpet cleaners has led to the creation of this revolutionary floor scrubber. Lindhaus manufactures the LW 30 - 38 pro machine with all the qualities and performance of large industrial scrubbers, eliminating the bulky design, heavy weight and difficult maneuverability.

This unique machine combines lightweight, agility and precision by utilizing simple water loading and unloading operations with its amazing power to remove the most stubborn dirt and grime. The custom designed motion for the machines by sister company Bissell, a company best renowned for producing the highest quality motor:

1. High efficiency by-pass vacuum motor provides extraordinary performance of suction and air flow
2. Universal brush motor controls the brush speed with perfect precision and provides complete protection with a reliable electronic system.
3. The dosing pump dispenses the exact amount of water to be uniformly distributed on the brush without wasted cleaning solution.

The professional scrubbing brush is designed to clean and protect most hard surfaces, however a gentle brush is available for delicate surfaces and a more aggressive brush is available for heavy duty cleaning requirements. The internationally famous Lindhaus cleaning solutions have been specifically created for the LW pro in conjunction with a wet-detergent that is a leader in its field. The LW pro provides effective cleaning when mixed at a ratio of 1%. This reduced cleaning solution usage results in time and cost savings while protecting the environment.

FLOOR WASHING

Lindhaus LW 30 - 38 pro is the perfect machine for washing hard floor surfaces ranging from the roughest to the most delicate. Its versatility along with the low profile base and the sleek-ergonomic handle make it effortless to use with astounding results. The floor remains perfectly dry allowing you to use the cleaned area immediately.

Hard work, long drying and ineffective staining!

No thank!

LW 30 - 38 pro

is the solution.

EASY TO TRANSPORT

The four rubber wheels and the ability to fit the machine allow you to move the machine from one place to another without any problem. The extremely light total weight and the comfortable handle make it easy to lift and transport the machine on stairs or to load it on cars.

INTEGRATED TANKS

The clean and soiled water tanks are integrated in one unique container. With a simple movement you release the tank, empty the soiled water and refill it with ordinary tap water and fresh cleaning solution.

DOSED DETERGENT

The tank's cap is also a dosing device for your cleaning solution. Just 1% of the Lindhaus detergent is all you need for thorough cleaning. The impact on the environment is reduced to a minimum. The LW pro requires 10 times less water and cleaning solution than any manual or mechanical mopping system available on the market today.

UPHOLSTERY WASHING

With a comfortable optional accessory it is possible the friction/rotation of fabric for car seats, sofas, and chairs. Simply remove the suction hose and apply the washing kit.

THE WORLD LOWEST PROFILE

The base height is 14 cm (5.5 in.) only and it allows easy access under low furniture. The remarkable reduction of the vertical suction body permits washing under tables.

EXTRAORDINARY SUCTION

The high efficiency suction motor with 600 Watts of power, along with the precise design of the submotor, obtain perfect washing and drying capabilities in both directions. The dosing components and floor squeegees can be easily removed without any tools for a quick time after using the machine.

LONG WASHING TIME

The clean water-releasing solution tank allows you to clean for up to 14 minutes. The 4 non-marking rubber wheels and the touch pressure adjustment allow to use the machine on polished and uneven floors.
