# Valzer

new age Hepa

An affordable dream!

Valzer has always been the best Lindhaus machine for home use.

This new generation is much more elegant complete and fully equipped.

The 6-stage filtration system includes the Carbon Active Filter/Microfilters and the Hepa Filter after the motor (option for U.S. market).

The functions of the machine are now the following: electric broom, vacuum cleaner, carpet cleaner and carpet washer; all standard functions.

The professional motors have had new improvements, which allowed to raise the performances and its quiet operation.

The new metallic green/blue colors in conjunction with the light grey, give an elegant and classy appearance to Valzer.

Laura, the new model and Lindhaus image contributes with her beauty to make us dream.

### BACK PACK KIT

With its padded back pack kit (optional), Valzer becomes a comfortable and light back pack vacuum. The cleaning of stairs, and those narrow and uneasy areas are no longer a problem.

### ELECTRIC BROOM

Valzer, stands for elegance, speed and lightness. Thanks to its special patented floor tools, it cleans perfectly any type of hard floors (ceramic, marble, wood) and in just one pass.

### BLOWING

By taking advantage of the hermetically sealing of all parts for an absolute filtration, with a special kit it is possible to take advantage of the air power for blowing. In this way it is possible to clear sinks, to remove dust from radiators, etc. The suction and blowing action may also be used at the same time by using the optional hose.

### VACUUM CLEANER

Thanks to the easy system to insert the hose from the top (patented), all suction immediately passes from the brush to the flex hose, to avoid in this way to hold the whole weight of the machine. The complete accessory kit allows to reach any area.

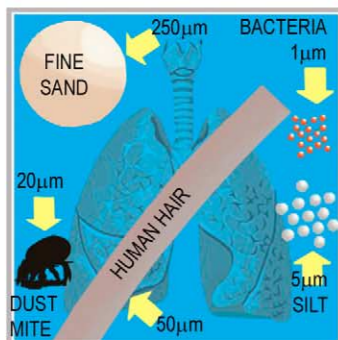

### UNIVERSAL NOZZLE M28R

This patented nozzle is the result of years of testing. It works on floors and carpets and provides perfect suction from all four sides. It runs smoothly thanks to the four rubber wheels. The central bristles together with the rubber strip are self-cleaning.

### NOZZLE WITH FELT AND BRISTLES

The double use nozzle M28F with felt, sucks and polishes simultaneously delicate floors such as marble, wood, linoleum etc. With the bristles it cleans energetically ceramic, tiles and non delicate floors and thanks to the two back wheels it runs smoothly and is easy to operate.

### HEALTHCARE FILTRATION

Comparative dimensions of the most common household contaminants, dangerous for our health.

The special 6-stage filtration system includes a Carbon Active Filter/microfilter to trap offensive odors, mounted before the vacuum motor and a S-Class Hepa Filter (option for U.S.A. market) for healthcare environments, mounted after the motor, which assures 99,97% efficiency filtration at 0,3 micron.

### MATTRESS

Thanks to the 4 wheels and to the brush height regulation, the Valzer new age carpet cleaner, if used on mattresses, runs easily making a light vibration which in conjunction with the powerful suction, removes dust, dust mites, hairs etc., and it allows you a peaceful sleep.

### D.C.S. DRY CLEANING SYSTEM

The new multipurpose power nozzle M30 esc, besides brushing textile surfaces it is used as an efficient carpet washer by mounting the red conveyor. The mechanical action of the rotating brush, in conjunction with the detergent action of Lindhaus products, represent the proper solution to clean hygienically carpets and rugs at no risks and effortless.

### THE NEW LINDHAUS CLEANERS

#### ECO DRY SPOTTER

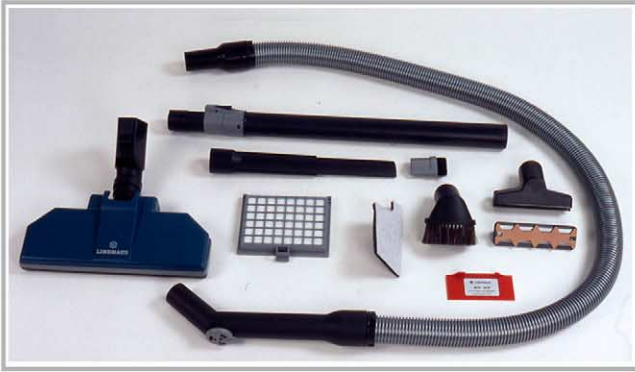

It is an efficient spot remover for carpet surfaces even against the most resistant stains. It is used also as dirt remover in those areas of frequent passage.

#### ECO DRY POWDER

Millions of micro sponges absorb the dirt and hygienically clean carpets and rugs, eliminating dust mites and contaminants dangerous for our health.

## STANDARD EXCLUSIVE ACCESSORIES

## OPTIONAL EXCLUSIVE ACCESSORIES

The company Lindhaus s.r.l. reserves its right to make any modifications without prior notice.

## TECHNICAL SPECIFICATIONS

### ELECTRIC BROOM

Vacuum motor	700 W
Water lift (inch/H <sub>2</sub> O) / mmH <sub>2</sub> O	79) / 2000
Air flow (CFM) / lt./sec.	(102,8) / 49
<b>By-pass valve for motor cooling</b>	Standard
Electronic suction power control	Standard
Full bag indicator	Standard
Two ply paper bag capacity	3 lt.
S-Class Hepa filter	Standard
Active carbon filter/microfilter	Standard
Blower	Optional
Sound level min.	66,1 dB(A)
Sound level max.	68,3 dB(A)
Reinforced cord (feet U.S.) / mt.	(35) / 8
Weight with brush (lbs.) / kg.	(9.7) / 4,4

### POWER NOZZLE / Dry Cleaning System

Motor	150 W
Electronic overload control	Standard
Protected cogged drive belt	Standard
Metal roller support with ball bearings	Standard
Brush height adjustment 1 – 10 mm	Standard
Suction width (inch) / mm.	(12) / 300
Working width (inch) / mm.	(10.5) / 270
Dry Cleaning System DCS	Standard
Weight (lbs.) / kg.	(5.3) / 2,4
Double isolation	Standard

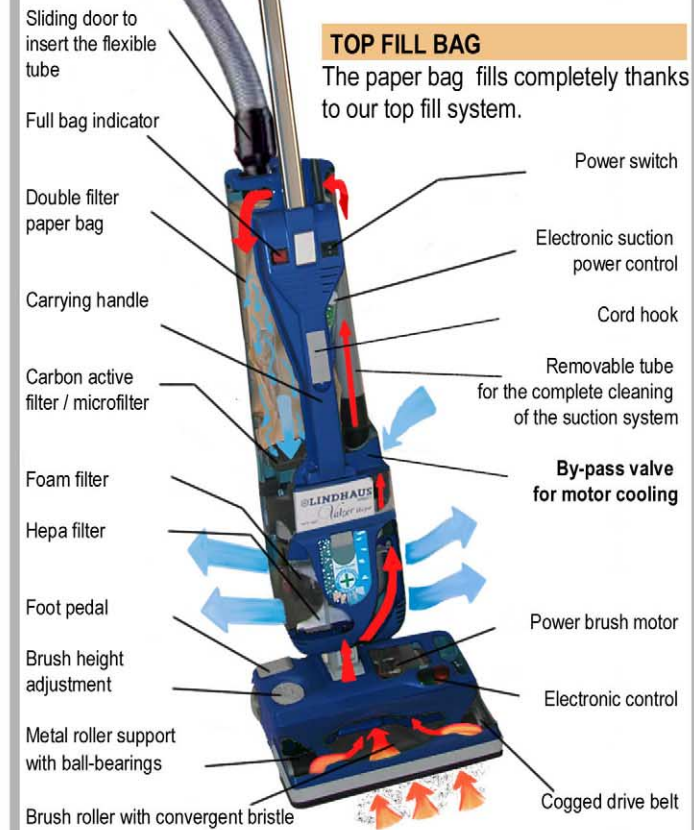

Approvals: **EUROPE**  **CANADA** **U.S.A** **RUSSIA**  
  

## BORN TO LAST

Long service life and low sound levels are achieved with superior engineering and precision manufacturing. Motors and all rotating components are balanced and protected by sophisticated electronic controls.

## TOP FILL BAG

The paper bag fills completely thanks to our top fill system.

Lindhaus thanks Laura (Miss Veneto) for accepting with enthusiasm the presentation of Valzer creating a perfect liaison of refined elegance.
